

# Accurex Controls

Complete Kitchen Ventilation System Control

## COMPLETE CONTROL DESIGNED TO BE SIMPLE

New Accurex Controls give you a simple, efficient way to operate and oversee your entire kitchen ventilation system. This control system features intuitive full-color touchscreen technology and simplified tool-free interface mounting with fewer parts and less wiring for easy installation and streamlined operation. Experience energy and cost savings as well as increased productivity from your staff by providing comfort throughout your operation.

Accurex understands the importance of managing multiple connections between kitchen system components. With the Accurex Controls platform, you gain even more value from our complete kitchen ventilation solution. Trust Accurex to deliver the same quality and clarity our products are known for, plus continued innovation to help your operation thrive.

## THE ACCUREX ADVANTAGE

**PLUG-AND-PLAY CONNECTIONS, FEWER MANAGED PARTS AND CLEARLY LABELED FIELD WIRING DIAGRAMS FOR EASY INSTALLATION, SAVING YOU TIME AND MONEY. HIGHLY CUSTOMIZABLE TO MEET ANY KITCHEN VENTILATION NEED.**

**EASY TO TROUBLESHOOT WITH MORE TURNKEY COMPONENTS BUILT IN FOR ADDED EFFICIENCY, TROUBLE-FREE ACCESS TO MORE DIAGNOSTICS, AND LESS FACTORY WIRING FOR WORRY-FREE MAINTENANCE.**

**FULL-COLOR, INTUITIVE USER-FRIENDLY TOUCHSCREEN FOR A CLEARER AND BRIGHTER INTERFACE OVER STANDARD BLACK-AND-WHITE BITMAP SCREENS, MAKING IT EASIER TO SEE, READ AND CONTROL.**

**EACH CONTROL IS THOROUGHLY TESTED BEFORE IT LEAVES THE FACTORY, GIVING YOU COMPLETE CONFIDENCE IN BEST-IN-CLASS PRODUCT QUALITY WITH THE PEACE OF MIND YOU'VE COME TO EXPECT FROM ACCUREX.**

**SEAMLESS DESIGN ELIMINATES UNSIGHTLY FASTENERS AND BUTTONS THAT CAN LEAD TO GREASE BUILDUP AND REQUIRE EXTRA CLEANING. FEATURES TOOL-FREE INTERFACE MOUNTING FOR EASY INSTALL AND A MODERN, SLEEK LOOK.**

## SIMPLE OPERATION

Bright interface with simple-to-follow, intuitive touchscreen allows you to easily navigate through the operation and configuration screens.

Interface can be programmed to allow you to see and control only functions you select without requiring you to go through a series of screens not applicable to your needs – a truly innovative solution, simplifying how you control your total kitchen ventilation system.

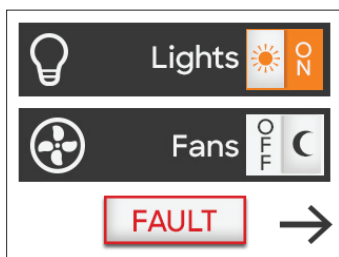

## COMMON DISPLAY SCREENS

The user-friendly touch screen features easy-to-read instructions for simple and concise operation. Every screen lets you easily navigate throughout the interface without confusion. Here are a few common screens.

Simple navigation and clear, straightforward graphics help you take control at the touch of a button. Innovative technology allows you to toggle the touch screen on and off with ease. This is the most common screen the operator will have access to during use.

If a complication or error occurs in the kitchen ventilation system, a FAULT alert will appear on screen, immediately notifying your staff there is a problem.

Conveniently troubleshoot directly from the touch screen without the need for a separate control board. For added security, the settings menu is password protected so only authorized users can access when needed.

**COMPLETE CONTROL**

Control your entire kitchen ventilation system with ease – from fans, make-up air and lighting to all components of a constant or variable volume ventilation system. Accurex Controls platform provides greater value and utilizes high-quality products integrated seamlessly for a streamlined, efficient operation. New options such as a room thermostat allow you to customize your kitchen ventilation needs.

**IMPROVED AESTHETICS**

Tool-free interface mounting, push-to-fit assembly with no visible screws and the elimination of bulky, unattractive buttons alleviate the worry of added grease buildup that can occur and require extra labor to keep clean. The result is a contemporary, aesthetically pleasing, uniform design.

**STREAMLINED INSTALLATION**

Field wiring diagrams and clear labeling decals are mounted inside of the panel next to the wiring connection points to help guide and ease installation and start-up. With several plug-and-play connections, the system has less parts and wires to manage.

**ENHANCED INTERFACE**

Vibrant, full-color touch screen is easy to see, simple to understand and straightforward to operate. The integrated platform allows you to navigate effortlessly through the interface using the same steps for each system connected to the control unit. Control your entire commercial kitchen ventilation system with ease with the intuitive touch screen.

**ADVANCED ENGINEERING**

The sophisticated control unit uses the latest in printed circuit board technology, engineered for convenient installation and efficient diagnostic purposes. Options that once would have required intricate wiring are now built into the compact printed circuit board software, removing complexity and utilizing less space within the unit.

**BALANCING EASE & FLEXIBILITY**

Balance your fans easily. A single control unit can control up to eight fans for added efficiency and seamless connection throughout your commercial kitchen. Compatible with numerous fan control options, including motor starters, variable frequency drives, and high-efficiency Greenheck Vari-Green® motors.

## ONE SYSTEM UNDER YOUR CONTROL

1 MAKE-UP AIR

2 EXHAUST FAN

3 TEMPERATURE SENSOR

4 FIRE SUPPRESSION

5 TOUCHSCREEN INTERFACE

6 REMOTE CONTROL PANEL

7 ADDITIONAL TOUCHSCREEN INTERFACE

8 ROOM SENSOR

9 LIGHTS

10 OPTIC SENSOR

## PARTS AND CONFIGURATION

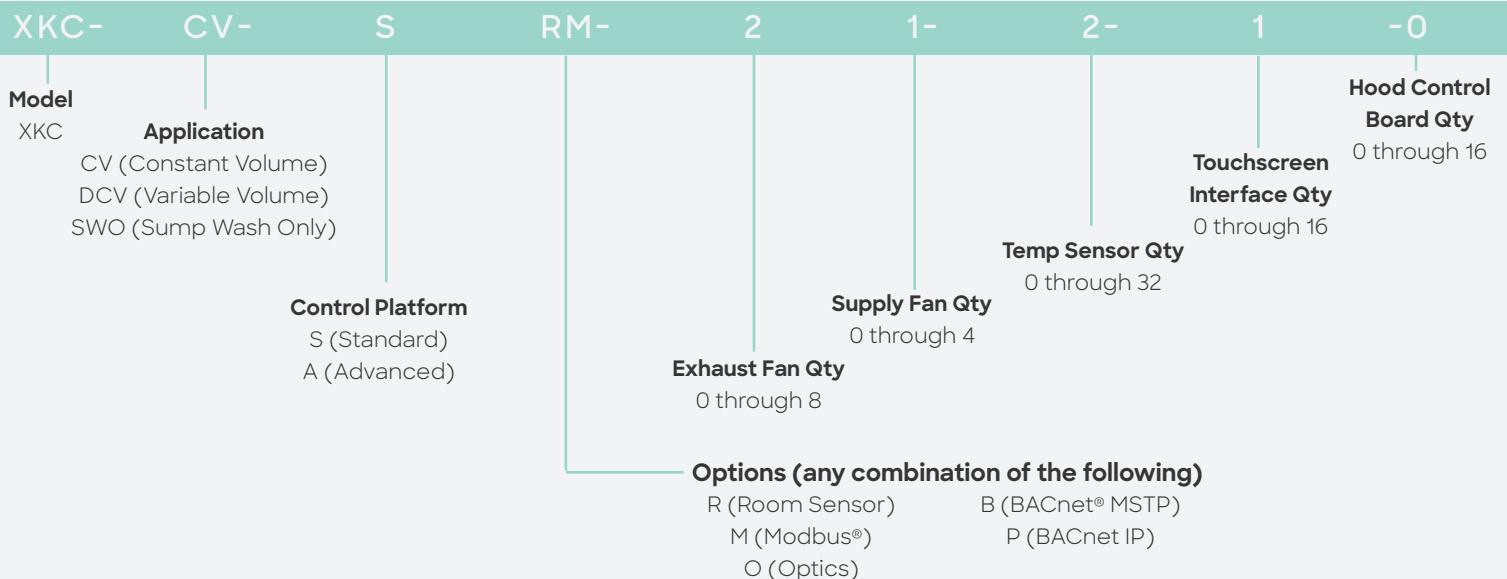

- 4 Terminal blocks for field connections
- 5 Motor starters/VFDs
- 6 Control transformer
- 7 Control relay
- 8 Field connection knockout holes
- 9 Low voltage field connections to circuit board
- 10 Control box (depends on configuration)
- 11 Temperature sensor
- 12 Clear installation labeling
- 13 Room sensor (optional)
- 14 Optic Sensor (optional)

- 1 Touchscreen interface (can be shipped mounted or loose)
- 2 Main control board
- 3 Quarter-turn latch

## MODEL AND OPTIONS DESIGNATION GUIDE

- Constant Volume Control (XKC-CV)
- Variable Volume Control - demand control kitchen ventilation (XKC-DCV)

## ENERGY AND COST-SAVING VARIABLE VOLUME CONTROL

Accurex saves energy and money with industry-leading turndown capabilities, high-efficiency motors and heat sensors with optional optical sensors, and the quick response and convenience of our demand controlled kitchen ventilation (DCKV).

In conjunction with a Greenheck Vari-Green® motor and direct gas-fired make-up air units featuring our patented barometric bypass damper, our DCKV provides **50% airflow reduction** leading to greater savings on gas and electric usage of the unit.

Add optical sensors for increased fan control in low heat, high smoke, or steam applications. Achieve all the energy savings of variable volume control with an increased capture rate when it matters. Optical sensors quickly adjust fan speeds to keep the kitchen operating at peak comfort without losing hood capture.

Hood-mounted temperature sensors respond to temperature changes up to five times faster than duct-mounted sensors, resulting in quicker airflow modulation and more efficient control and operation.

Decreased fan usage results in less wear on the motor, belts and pulleys – reducing maintenance.

Fan speeds automatically adjust, saving electrical energy. When you have a heated or cooled make-up air unit you benefit from additional reduced gas and electric consumption.

## CONSTANT VOLUME VENTILATION: COMPLETE SAFETY AND TOTAL CONTROL

Code-compliant back-up safety controls automatically activate the exhaust system when cooking appliances begin generating heat and keep fans running until temperature drops.

Easily and safely override manual controls with automatic fan activation that interlocks all fans within the same zone.
